overflow

May 20th, 2020 -

in the perl

world what we

tend to call a

template is more

of a fill in the

blanks to create

this specific

page kind of

thing it doesn't

create or define

any program

level

functionality it

just presents
the
functionality of
the underlying
code to the
user'

'perl for cgi
and web
programming
May 1st, 2020 -
perl 5 was one
of the first
available
technologies for
automating a web
server and is
still considered
one of the most

powerful and
most cost
effective ones
today once you
learn the core
language and
some html and
http concepts
programming a
simple cgi
callback or form
handler is very
easy and
straightforward'
